

raw knock-out $|\Delta \text{margin}|$ excess over 1 uniform control (old) excess over 5 firing-rate-matched controls (S1 fix)

Test split (180 items): ΣS_{causal} over the top 25 $0.371 \rightarrow 0.178$, -52.0% (age 63%, heart_rate 100%)

Held-out: the matched-control knock-out has not been run, so no held-out panel is shown.
